Brief Description:

1. As the reconstruction or construction of certain municipal roads, freeways and interchanges connecting highways and roads were completed consecutively and the second phase of Shenzhen Metro commenced operation, the transportation network in Shenzhen region has been improved continuously. Moreover, certain tolls on local roads in Shenzhen were cancelled in the first half of 2011. Such factors led to certain changes in traffic distribution and composition in the road network of the region and thus, there are positive or negative impacts on the operational performance of the projects operated or invested by the Group in Shenzhen region. Among these, changes in road network facilitated the operational performance of Yanpai Expressway while there were certain negative impacts on Meiguan Expressway, Shuiguan Expressway, Shuiguan Extension, Jihe East and Nanguang Expressway.
2. An expressway toll rate has been adopted on the Liannan Section (Lianzhou-Fengbu) of Qinglian Class 1 Highway since 25 January 2011 after its reconstruction into an expressway. The total toll mileage of Qinglian Expressway increased from approximately 188 km to approximately 216 km. Yifeng Expressway (Fengtouling, Guangdong – Yizhang, Hunan) connecting the north end of Qinglian Expressway opened to traffic on 25 September 2011, which improved the connection of Qinglian Expressway with peripheral road network. The above-mentioned factors have positive impacts on the operational performance of Qinglian Expressway.

For basic information and historical operational statistics of each toll highways, investors may visit the Company's website at <http://www.sz-expressway.com> under the sections "Toll Roads & Bridges" and "Operational Statistics", respectively.

CAUTION STATEMENT

The Board hereby reminds investors that the above operational statistics are based on the Group's internal records which are unaudited. Differences may arise between such statistics and the data disclosed in periodic reports due to completion of certain steps on sorting out the traffic volume and toll revenue data and confirming the results of sorting out such data. Such statistics are provisional and for reference purposes only. Investors are cautioned not to rely unduly on such statistics.
